

Up-to-date technology for Urinalysis

OmniMed (Pty) Ltd is a supplier of diagnostic tests and other medical consumables. We have been in the medical and diagnostic business since the Company was founded in 1960.

Through the MakroMed brand, our urinalysis products are internationally recognised. Furthermore, as a manufacturer and exporter of quality urine reagent strips, we are certified to conform to the strict international requirements for human and veterinary diagnostics. Our manufacturing business is certified by DQS Germany according to ISO 9001, EN 46001 and ISO 13485 standards. In addition, all products conform to the new in vitro diagnostic medical device directive 98/79/EC (CE mark).

Technical specifications for MakroMed® Urine Reagent Strips

Parameter	Sensitivity	Time
Glucose	2.8 mmol/l	60 sec.
Ketones	0.5 mmol/l	60 sec.
Protein	15 - 20 mg/dl	60 sec.
Blood	5 - 10 erythrocytes/ μ l	60 sec.
pH	5.0 - 9.0	60 sec.
Nitrite	7 - 12 μ mol/l	60 sec.
Bilirubin	9 μ mol/l	60 sec.
Urobilinogen	17.5 μ mol/l	60 sec.
Leukocytes	10 cells/ μ l	60 - 120 sec.
Specific gravity	1.000 - 1.030	60 sec.

Storage and Shelf Life:

OmniMed urine analysis products are stable for up to 24 months from date of manufacture when stored between 10° C and 30° C.
